How might climate change impact on New Zealand?

30cm sea level rise 2015 - 2065

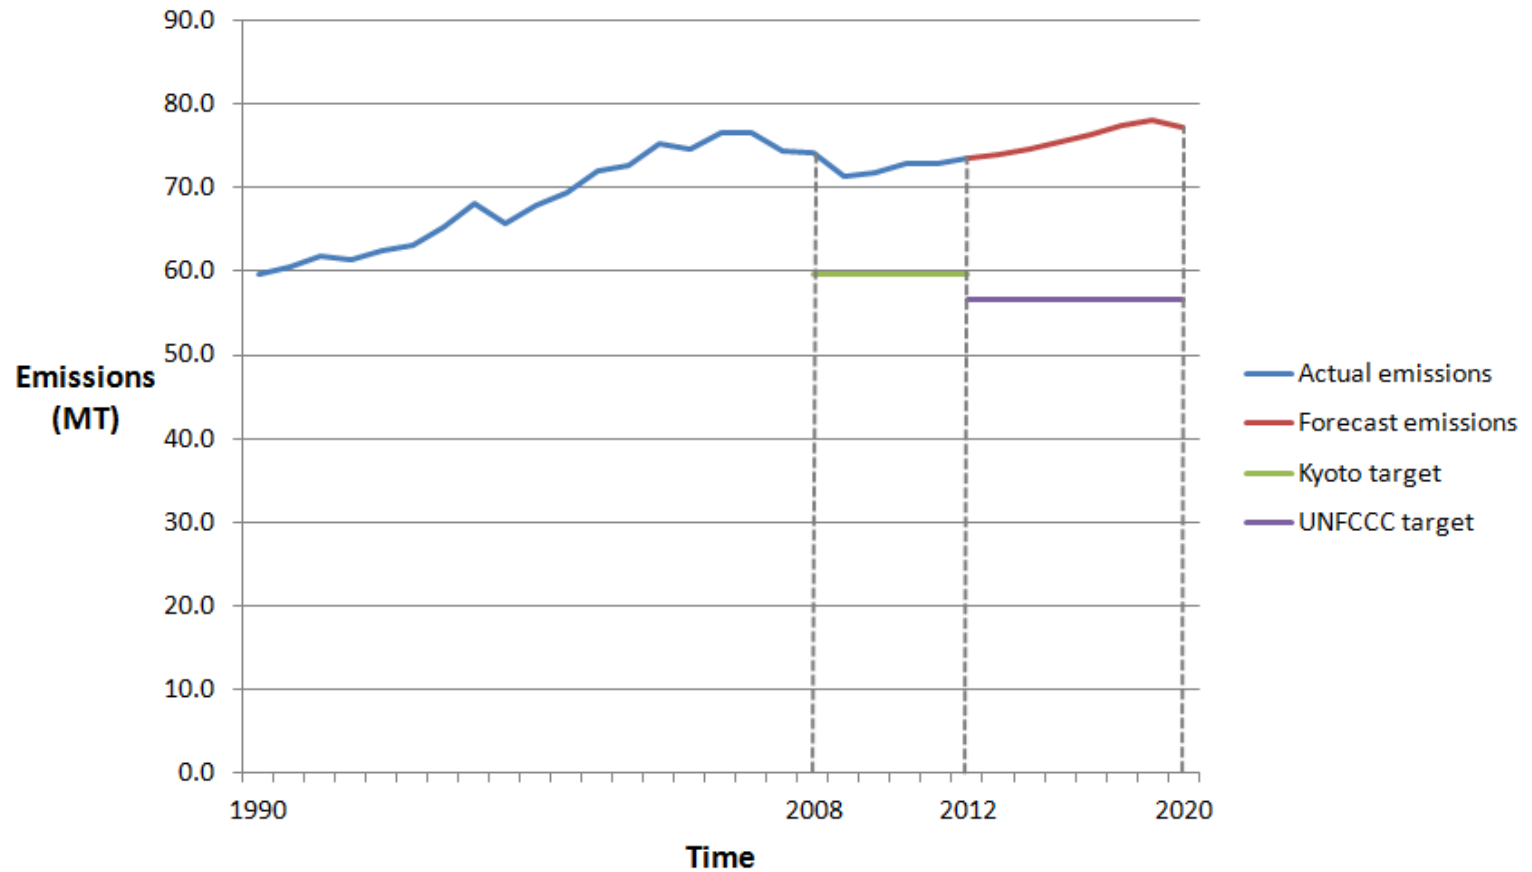

3.1% of NZ's population live within 0-1.5m

NZ's GHG Emissions by Sector

Bending the curve?

Question time!

1. How do we adapt to rising sea levels?
2. How do we bend our emissions curve?
3. How do we decide an appropriate domestic vs. overseas split?
